National Bond

National Bonds and UAQ FTZA Join Forces to Empower 9,000 Entities with Pension Solutions in the UAE

Case Study

The National Bonds save-tastic experience is now on the go. Our new app allows you to tap into the world of your saving anytime, anywhere, so your journey isn't just seamless, it's also convenient.

Features

- Manage your account and keep track of profit, bonuses, and prizes
- A financial planner is your partner through this journey and will work with you to achieve your goals.
- The first step in this process is to understand responsibilities, plan accordingly and agree on how decisions will be made throughout the term of the
- partnership.
  In order to reach your goals and achieve your personal ambitions, you need to know where you are today and
- where you want to be in the future.
  You need to have a starting point and an ending point, the time frame and an estimated dirham cost.
- Analysis and evaluation are keys to any successful financial plan.
- Based on your goals, we go step-by-step through a plan to help you understand each financial recommendation in order to make a clear decision.
- Once these recommendations have been implemented, we will be your coach to coordinate with other trusted professionals such as: accountants, stockbrokers, attorneys, notaries or trust managers.

LESS MEETING

Use Less Meeting to refocus your meetings.

Case Study

Real-time collaboration and keyboard shortcuts allow your team to instantly capture and share important meeting minutes, actions, and decisions. Instantly share all your meeting minutes the second the meeting ends. Don't bother trying to translate chicken scratch ever again.

Features

- It can be difficult keeping track of everything you have to do, let alone the people you work with. Users are twice as likely to get to-do's done and on time with Less Meeting.
- Set agendas and simplify meeting minutes for an average of 18% less time spent in meetings. Why stay late when you can add time back to your day?
- Tired of sending several emails to see if to-do's are getting done?
- Automated reminders allow users to assign and check off action items so that you aren't stuck finding out whether anything is getting done.
- Create agendas using our Outlook plugin, Google Apps and iCal template that automatically syncs with Less Meeting.
- Automatically sync tasks with your favorite to-do program.
- Create a task in Less Meeting & check off the task in your to-do app later.
- Easily Sync With Outlook, Google Apps & iOS Devices
